

Ali Love Biography

Frontman, songwriter, musician and straight up entertainer, the inimitable Ali Love has many sides and a discography as long as your arm. From collaborations with the Chemical Brothers, Justice, CamelPhat and Roisin Murphy, via a nonstop thrill ride as part of Infinity Ink and Hot Natured, through solo music and special projects, Ali has carved a special place as a hit maker and remains “rarely less than entertaining” (Resident Advisor).

One of the most distinctive voices in UK dance music (voted by Defected as one of THE voices of House), his ‘Benediction’ song with Hot Natured has long been the benchmark, while his refusal to stay in his box is the perfect antidote for modern day anonymous ‘track’ culture.

Ali’s recent ‘Confusion’ collaboration with Keinemusik was a recent moment and another Essential New Tune for Pete Tong on BBC 1 FM, and covered by Drake, who cites the song as an inspiration. Psychedelic house, cosmic disco and soulful downtempo all entwined with Ali’s golden vocals. Currently recording a new solo album, and on the cusp of launching several artist projects, Ali will emerge from the studio in 2023 with another collection of future classics.

Love always wins.
